Find UADE ON

[fact sheet]

Located in the heart of Buenos Aires, UADE is an undergraduate and graduate degree-granting university with a 28,000 student population. Campus based, this modern and innovative institution of higher education is devoted to providing students professionally focused leading-edge opportunities in learning and research engagement.

Strong academic - business profile

Founded by the Argentine Chamber of Corporations, its identity is built upon strong ties between the University and the business world. These ties enable UADE to keep pace with the ever-changing labor market demands and give a proactive response through academic education and research.

Education is enhanced by avant-garde technology. Its graduates are proficient with state-of-the-art technology and apply their theoretical knowledge and hands-on experience to real world situations in a high-tech, cutting-edge environment. Student and Faculty's academic life is enriched by internationalization.

There is room for global experiences for both students and faculty through educational, cultural, and linguistic exchange programs: every year, more than 300 foreign students from over 30 countries are welcome to UADE and can validate their credits within their exchange programs. They receive support from the International Relations Office, which serves as a point of contact between students and faculty departments. To foster internationalization of curricula, faculty and students, UADE holds partnerships with more than 100 partnerships in the world. UADE also has another campus called Costa Argentina, which is located at 375 km. from Buenos Aires, where intensive courses are offered. Duration: one week. RESEARCH INSTITUTES

UADE is striving to stimulate high-quality applied research output and has been doing so by building on the existing strengths of its different APPLIED RESEARCH INSTITUTES.

They are committed to encouraging original inquiry, innovation and contribution to national development. To this end, they have recently made bonds with Consejo Nacional de Investigaciones Científicas y Técnicas (CONICET) to develop and sustain a recognised research culture, produce discussion paper series and be hosts of research visitors with the purpose to promote exchange among academics, students, alumni, professionals in the public and not-for-profit sectors.
